The Israel MS Society

The Israel MS Society provides services to persons with MS belonging to the diverse sectors of population that make up the State of Israel: Hebrew, Arab, Russian, English speaking persons.

The Israel MS Society activities

01 27 Support groups facilitated by professional psychologists & social workers in Hebrew, Arabic, Russian

The support groups operate throughout the country. The groups meet once every two, three or four weeks & some 30-35 patients & family members participate in each meeting. These meetings provide an opportunity to relieve tensions, share problems & get advice & encouragement.

02 Peer counseling group

in which patients who have had special training provide telephone counseling to other patients. The counselors meet once a month for training.

03 Hotline

run by a coordinator & specially trained operators, who handle incoming & outgoing calls to/from patients & members of their families.

04 Community social worker

individual & community information & counseling, help with referrals to government agencies, home visits.

05 Russian language social worker for new immigrants

individual & community information & counseling, home visits.

06 20 Social Work students in their internship year

the students from the universities – Jerusalem, Haifa, Sapir College, Mivchar College (Orthodox – Bnei Brak – connected to Haifa University) Ashkelon college, Are trained by the society for 1 year & provide individual treatments in Hebrew, Arabic & Russian to hundreds of MS clients in the homes of members & the Society’s offices. after this year the students go into the workplace familiar with MS & the special needs of MS clients.

07 Data Coordinator in Arabic

individual information & counseling.

08 Yearly summer camp for 170 children of MS patients, summer – since 1997

one-week sleepover camp, the children meet other children with similar experiences & can relieve the tensions that are suppressed during the year at special facilitated workshops.

09 Yearly MS patients Excursions & vacations – since 1997

the Society has set itself the task of enabling 200 members with MS to enjoy a four-day vacation, offering them a refreshing change from the routine of their largely housebound lives, & their inadequate NI pensions.

10 Legal advice

the department is managed by the Society’s legal counsel – volunteer.

11 Grants & loans fund

individual financial assistance for air-conditioning, distress buttons, dental care, wheelchairs etc – 3,000 NIS each loan for 30 persons a year.

12 8 Seminars & conferences yearly

on different current issues: Hebrew, Arabic & Russian

13 Book listing the rights of MS patients

The book lists the rights & services in areas such as: healthcare, taxes benefits, welfare, housing, transport, rehabilitation & professional retraining, nursing, leisure services etc. Updated periodically.

14 Information sheets & times a year

in three languages: Hebrew, Arabic, Russian

15 MS site

at the beginning of May 1999 the Society’s site opened at: www.mssociety.org.il

16 In planning Setting up a multidisciplinary adult enrichment resort for people with MS & other neurological diseases

many MS patients are cut off from the most basic health services, such as physiotherapy, speech therapy, occupational therapy, sex counseling, dental care etc. MS patients & their families need a warm home where under one roof, patients & their families can receive a variety of multi-disciplinary services to alleviate their suffering.

The Israeli MS Society

is a Members of the

International Federation

5000 Persons with MS registered with the IMSS

35% Russian

15% Arabic

2% Minorities

8% Ultra Ortodox

4% young people aged 4-18

1.5% children aged 6-14

2/3 of MS patients are Women

"Just the Way I am" by Mirage

Dedicated to persons with MS and in honor of their families & caregivers worldwide.
The music clip created by the IMSS celebrates the beauty within each one of us and advances the vision of a world free of prejudice and oppression of others due to their physical challenges, or their religious, ethnic or gender identity.

ONE day soon we will realize the hope – that a cure will be found.
TODAY we all must work to promote quality of life for persons with MS.
Together we can win the battle against all expressions of narrow-mindedness, disrespect, injustice, bigotry and shameing.

UNITED, WE CAN OVERCOME ALL OBSTACLES AND MAKE A CHANGE!

\textbf{"We are all uniquely beautiful and perfect Just the way we are'\textbf{}}

Today, each one of us can say:
"I am not my pain, I am not my struggle I am stronger than ever I am perfect just the way I am"
